Top Screwups Doctors Make and How to Avoid Them Sep 23 2022 A primary care doctor is skeptical of his patient's concerns. A hospital nurse or intern is unaware of a drug's potential side effects. A physician makes the most "common" diagnosis while overlooking the signs of a rarer and more serious illness, and the patient doesn't see the necessary specialist until it's too late. A pharmacist dispenses the wrong drug and a patient dies as a result. Sadly, these kinds of mistakes happen all the time. Each year, 6.1 million Americans are harmed by diagnostic mistakes, drug disasters, and medical treatments. A decade ago, the Institute of Medicine estimated that up to 98,000 people died in hospitals each year from preventable medical errors. And new research from the University of Utah, HealthGrades of Denver, and elsewhere suggests the toll is much higher. Patient advocates and bestselling authors Joe and Teresa Graedon came face-to-face with the tragic consequences of doctors' screwups when Joe's mother died in Duke Hospital—one of the best in the world—due to a disastrous series of entirely preventable errors. In *Top Screwups Doctors Make and How to Avoid Them*, the Graedons expose the most common medical mistakes, from doctor's offices and hospitals to the pharmacy counters and nursing homes. Patients across the country shared their riveting horror stories, and doctors recounted the disastrous—and sometimes deadly—consequences of their colleagues' oversights and errors. While many patients feel vulnerable and dependent on their health care providers, this book is a startling wake-up call to how wrong doctors can be. The good news is that we can protect ourselves, and our loved ones, by being educated and vigilant medical consumers. The Graedons give patients the specific, practical steps they need to take to ensure their safety: the questions to ask a specialist before getting a final diagnosis, tips for promoting good communication with your doctor, presurgery checklists, how to avoid deadly drug interactions, and much more. Whether you're sick or healthy, young or old, a parent of a young child, or caring for an elderly loved one, *Top Screwups Doctors Make and How to Avoid Them* is an eye-opening look at the medical mistakes that can truly affect any of us—and an empowering guide that explains what we can do about it.

What Difference Does Research Make and for Whom? Jul 21 2022 Education is a discipline that is constantly emerging, and for which there are more questions than answers. Beyond the research reports, the articles in refereed journals, and the well-crafted presentations, what is happening in education? What difference does our work make in the lives of those we research? How is education as a whole different because of our effort? And what is the nature of the difference we make? This book provides some answers to those questions based on engaged and critical research from around the world. It is also a critical reflection on new possibilities for qualitative research, its implications and relevance to educational practice. Andrew Hargreaves, Enora Brown, Graham Hingagaroa

Smith, Jack Whitehead, Mutindi Mumbua, Andrew Gitlin, Phil Carspecken, and others invite readers to join the conversation, and take it beyond these pages by enriching and extending the discourse within their communities of practice.

[Quilts - Their Story and How to Make Them](#) Mar 17 2022 This book was the first book ever published in America on the subject of quilts and contains all the information one might want to know about the topic. The quilt has a tradition of long centuries of slow but certain progress. Its story is replete with incidents of love and daring, of sordid pilfering and generous sacrifices. The same type of handiwork that has sheltered the simple peasant from wintry blasts has adorned the great halls of

doughty warriors. Complete with panoply of images and a wealth of interesting text, this book is a must-have for any quilting enthusiast. Marie Daugherty Webster was a business woman, quilt designer, and the author. Originally published in 1915, we are proud to republish this scarce book here with a new introductory biography of the author.
